Code Detox

Fix Buggy Code

Description:

Are you ready to debug like a pro?

🤖 CODE DETOX is a challenge where participants will fix buggy Python code across different difficulty levels. The goal? Identify errors, correct them, and ensure the code runs smoothly and efficiently! But be careful—every mistake could cost you points!

Only the sharpest problem solvers will make it through. Think you've got what it takes? Let's find out! 🚀

```
self = this
is).one('bsTransitionEnd', function () { called + 1
callback = function () { if (!called) $(el).trigger
timeout(callback, duration)
return this

function () {
support.transition = transitionEnd()
(!$.support.transition) return
event.special.bsTransitionEnd = {
bindType: $.support.transition.end,
delegateType: $.support.transition.end,
handle: function (e) {
if ($(e.target).is(this)) return e.handleObj.h
```

Dev Dash

Code. Create. Conquer!

Description:

This isn't just another hackathon—it's a playground for developers to showcase, test, and refine their coding skills in an intense, high-speed challenge. Whether you're a front-end designer, a back-end architect, or a scripting wizard, Dev Dash is your chance to shine! But there's a twist—the theme will be revealed on event day! Can you adapt, innovate, and deliver under pressure?

🔍 How It Works:

- ✅ Step 1: Choose your domain (Front-end, Back-end, or Just-Working Scripts)
- ✅ Step 2: The theme is revealed on event day (Surprise twist!)
- ✅ Step 3: Code for 45 minutes + 10 minutes for wrap-up
- ✅ Step 4: Present & explain your project to the judges

🔧 Domains & Themes:

- 1 Front-End Development
 - 🎨 Themes: Business landing pages, chat interfaces, product displays
 - 💡 Ideal for: Design lovers comfortable with HTML, CSS (maybe JS)
- 📞 For more details, contact:
 - 📌 Student Coordinator:
Santhosh M K- 79041 27446

- 2 Back-End Development: RESTful APIs (CRUD), real-time chat, dynamic content (Flask, Spring Boot, etc.)
- 3 Just-Working Scripts: Web scrapers, file automation, API wrappers (Any basic programming skill required)
- 📌 Rules & Guidelines:
 - 👤 Solo or Duo
 - 🕒 Time Limit: 45 min coding + 10 min wrap-up
 - 💻 Resources Allowed: AI, Google, tutorials (Must understand your code!)
 - 💻 Bring Your Own Laptop
 - 🔴 All work must be done during the event
- 👤 Judging Criteria: Projects are scored on Creativity (20%), Efficiency (10%), Explanation (40%), Usability (20%), and Domain-Specific Implementation (10%). Clear execution and understanding matter the most!
